## DETAILED ACTION

### *Election/Restrictions*

1. This application is in condition for allowance except for the presence of claims 8-13 directed to a manufacturing method or apparatus of a liquid crystal display panel non-elected without traverse. Accordingly, claims 8-13 has been cancelled.
2. Claims 1-7 and 14 allowable. The restriction requirement, as set forth in the Office action mailed on 2/12/09 , has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 6 and 7, directed to a manufacturing method of a liquid crystal display panel no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. Claims 1-7 and 14 allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or disclose, in light of the specifications, a manufacturing method of a liquid crystal display panel comprising a liquid crystal dropping step of dropping liquid crystal on one of the two substrates wherein each of the two substrates has an alignment film; and to be performed prior to the sealant arranging step, a deaerating step of arranging in a pressure-reduced atmosphere at least a substrate on which the sealant is to be arranged out of the two substrates, such substrate being placed in the pressure reduced atmosphere with the alignment film exposed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
